Instructions for a long shelf life

Step 1: Take the cut cyclamen from its box.

Step 2: Now cut the cut cyclamen to equal lengths, as desired.

Step 3: Now, with the point of your knife, make a vertical cut of 1 cm underneath in the stem.

Step 4: Immediately place the cut cyclamen in water without cut flower food.

Tips

- The cut cyclamen can be kept both in and out of the refrigerator.
- Don't use food in the water
- The cut cyclamen loses its shelf life if the stem is processed in oasis
